Spare Parts

Nordisk Clean Solutions works solely with authorised service companies and has one or more local partners on all markets in which we operate. See the separate price list for prices for spare parts for each market.

Contact us for more information on service companies in your area, and for a current price list for spare parts.

Maintenance

Our machines are designed to be cleaned simply and efficiently. That's because we know the importance of daily cleaning for optimal wash results. It's every bit as important to make sure that the machine is maintained with regular servicing, ensuring simple and worry-free use and extending the service life of your machine.

Does any part of your machine need to be replaced? We guarantee spare part availability for at least 10 years once the model has been taken out of production.

EN - Surcharge

To cope with the current cost volatility of raw materials such as stainless steel, electronic components, plastics, etc., we adopt a system of surcharges that may be added to or deducted from the current price list on a monthly basis depending on cost development. On the 15th of every month, we will inform you about the coming month's surcharge rate, if any. The surcharge may vary between different products. With this, we hope to keep the impact of the cost increase to a minimum throughout the sales channel.
